

Inventory Management System for Retailers

3. TRIGGERS

TR

What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.

- Seeing other retailers move to a more efficient solution.
- Learning that softwares are more economical and scalable than managing manually.

4. EMOTIONS: BEFORE / AFTER

EM

How do customers feel when they face a problem or a job and afterwards?
i.e. lost, insecure > confident, in control - use it in your communication strategy & design.

Before:

- Retailers might be frustrated that the existing manual method incurs more cost in terms of time and effort and also worried the human prone errors.
- Retailers might not be able to completely focus on the business growth.

After:

- Retailers need no staff for stock management which saves money and thus making them happy.
- No human prone errors and retailers alert that where is there out of stock making them focus on the main business functions and thus making retailers more confident about the success of their business.

10. YOUR SOLUTION

SL

If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality.

If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.

- A cloud hoster inventory management system which is highly scalable and can be accessed by the retailers to manage their stock effectively.
- Retailers need to create an account in the system and then can login to update their inventory details.
- All so users will be able to add new stocks by submitting essential details related to the stocks.
- They can view details of the current inventory.
- The system will send an Email alert to the retailers if there is no stock found in their accounts, so that they can order new stocks.

8. CHANNELS of BEHAVIOUR

CH

8.1 ONLINE

What kind of actions do customers take online? Extract online channels from #7

- To manage the stocks ,retailers can hire staff by using the social media for advertising
- Can search for effective ideas/techniques to manage the stocks and to reduce human error in management.

8.2 OFFLINE

What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.

- Can hire more staffs by using posters for advertising
- Can get help from other retailers nearby to effectively manage more stocks without incurring much cost and maintenance.
